For President WOODROW WILSON For Vice President THOMAS R. MARSHALL

On the Mexican question Hughes and Fairbanks have established a perfect equilibrium. Fairbanks has approved the President's Mexican policy of peace and humanity as strongly as Hughes condemns lt.

There is a keen Republican disappointment at the manly statement of A. P. Sandles in support of former governor James M. Cox, that he will support Cox with all his ability, and his assurance that he knows Cox will be re-elected. His statement carries further weight in the announced purpose that he will not be a candidate for or accept any office during the next term of Governor Cox.

Govenor Cox in his last fiscal year in the executive department spent \$28,127.48. Governor Willis in the fiscal year just closed, in the state de-partment, spent \$29,989.71, Cox lapsed back to the treasury \$17,014.11 Willis has not lapsed a cent. Fur-ther demonstration that it cost the State of Ohio more for economy under Willis than it did for "extravagance" under Cox.

LINCOLN VS. HUGHES

[M. R. Scott, in Ohlo State Journal.]

When I read that portion of Mr. Hughes' letter of acceptance in which represented Wilson's administra tion as distinguished by no qualities but weakness and indecision and the like, I wondered whether he (Hughes) had ever read President Lincoln's letter to Horace Greely, in reply to Mr. Greely's criticisms of his administration, which criticisms, be known, were similar in both spirit and substance to those that are now put forth by Mr. Hughes and his following concerning Wilson's administration. In this letter to Mr. Greely, Lincoln said among other things:

"What I do about slavery and the colored race, I do because I believe it helps to save this union and what I forbear, I forbear because I believe it would not help to save the union. shall do more whenever I believe that doing more would help the cause and I shall do less whenever I believe that what I am doing will hurt the cause I shall try to correct errors when shown to be errors, and I shall adopt new views so fast as they shall appear to be true views. I have here stated my purpose according to my view of official duty and I intend no modification of my oft-expressed personal wish that all men everywhere might be free."

Alas, I fear, judging from Mr Hughes' present course, that if he ad been a candidate for president against Mr. Lincoln in 1864. would have traveled up and down the country condemning the administration for indecision and inefficiency while at the same time taking care not to tell the people what he would do if he were in Mr. Lincoln's place!

A recent issue of LaFollete's Magizine, signed by Senator Robert M. LaFollette, of Wisconsin, entitled, 'Who Owns Mexico?" A BACKWARD STEP IN CIVILIZA-TION TO GO INTO MEXICO, HE SAID

It will be recalled that the Mexican situation came to President WIIson as a Taft hand-down. The Republican president was having his roubles and armed intervention was insisted upon.
